

SUCCESS STORY - 2

Name of Farmers	- Sri Satyendra Kumar Mehta
Address	- Village+Post- Chandoli , Block-Madanpur , District- Aurangabad (Bihar)
Contact No.	- 09122342067
Details of the Farm	- Total own cultivable land 1.00 acre On lease - 19 acre Own tube-well - 1 Power tiller - 1 Knepshek - 3 Gatore - 1
Self Help Group	- Pragatishil Kishan Club, Chandoli, Madanpur, Aurangabad on June 2011

Name of KVK utilized - Krishi Vigyan Kendra, Siris, Aurangabad and associated since 2011.

Technologies obtained with details –

Sri Satyendra Kumar Mehta is hard working and devotee young farmer of village Chandauli, district-Aurangabad having only 1 acre of land for cultivation. He was a traditional vegetable grower. Due to low profitability and higher cost of cultivation feeling insecure in this profession and he was unable to feed his 8 family members and to educate the children. Then he decided to take 5 acre of land on Patta for cultivation of vegetables and fruits. One day Mr. Satyendra Kumar attended krishi Mahotshawa at Madanpur block and came in contact with KVK scientists. After careful thought and through discussion with the scientist he decided to cultivate exotic vegetable and papaya so that he could earn a lot within a limited time frame. For this he also suggested to visit the Indian Vegetable Research Institute for getting confidence and better technical knowhow. Now situation is that he became a innovator for other farmers of in surrounding areas of his village and always find himself ready to attend all the programme organized at Krishi Vigyan Kendra and Bihar Agricultural University for better knowhow. Before last year he got a Kisan award in the Kisan Mela organized by Bihar Agricultural University, Sabour, Bhagalpur for his endless effort vested in the field of horticulture and developing a club for the poorer.

(A) Details result obtained due to the Adoption of Technologies-

Crop	Area	Cost of Cultivation	Income	Net Income
Papaya	12 acre	Rs. 8,00,000.00	Rs. 30,00,000.00	Rs. 22,00,000.00
French bean	02 acre	Rs. 12,000.00	Rs. 96,000.00	Rs. 84,000.00
Simla mirch	05 acre	Rs. 40,000.00	Rs. 2,65,000.00	Rs. 2,25,000.00

(B) Natural Resource Saved/ Conserved like soil, water, etc.

After composting vegetable leaves it increases soil health, water holding capacity, and finally fertility of the soil.

Marketing strategy – Marketing done in the Patna, Varanashi and local market with the help of own SHGs

Factor Contributing to Success - Regular visit by scientists of Krishi Vigyan Kendra, Siris, Aurangabad and interest and hard work of farmers group is inside of success.
